

SPECIALTY PRODUCTS: HIGH FREQUENCY

Our product lineup boasts a diverse array of essential components including attenuators, delay lines, low-pass absorptive edge filters, and mm-Wave bandpass filters. Each component is engineered with precision and expertise, delivering unparalleled reliability and functionality to meet the demands of today's cutting-edge applications.

Attenuators

- High Performance
- High Frequency
- High Precision
- Temperature Variable

Filters

- Low Pass
- High Pass
- Band

Delay Lines

In order to ensure that TFT can create products tailored to the needs of the project, it is imperative to reach out with detailed specifications outlining the unique requirements and expectations.

Signal Optimization

EMI Suppression

5G Compatibility

Since its inception in 1979 and joining the Juneway Group in 2013, TFT has been leading the way as a seasoned manufacturer of high-quality electronic components. Through a steadfast dedication to quality and ingenuity, TFT has built a trusted reputation of expertise focused on serving the needs of its longstanding clients and has broadened its scope and reach.

A comprehensive product portfolio allows TFT to supply diverse industries, showcasing an ability to provide custom project solutions. TFT's cutting-edge engineering innovations ensure components meet the highest performance and reliability standards. With competitive lead times and flexible pricing structures, TFT maintains a customer-centric approach focused on responding to dynamic market trends. As a leader in component manufacturing, TFT's legacy of quality and innovation continues to shape the future.
