

Quiet

Effective Cooling

Fan for Gaming

MF 12025

Axial Fan

4-pin PWM fan with high airflow and quietness suits for gaming PC cases, radiators or CPU cooling

High
Air Flow

Low
Noise

Long
Life

MagLeV Motor Technology

Mastering Precision Engineering: Achieving Optimal Stability in Rotor Center of Gravity
Perfecting Stability: Minimizing Wobbling and Improving Precision in Rotating Systems
Silent Efficiency: Achieving Low Noise, Low Vibration, and Extended Lifespan in Engineering Systems

PWM
CONTROL

Precise PWM Speed Control for Optimal Quietness

Whisper-Quiet Efficiency: Achieving 26.6 dB(A) Silence under Full Duty Cycle with Real-Time Thermal Synchronization and Zero Energy Waste

AERODYNAMICS Blade

Enhancing Fan Efficiency: Achieving Reduced Noise and Superior Sound Quality

With Groove
Blade

W/O Groove
Blade

Quieting Turbulence: Minimizing Blade Edge Noise for Enhanced Fan Performance

Size (mm)	Model	Bearing	Rated Voltage (V)	Power Current (mA)	Power Consumption (W)	Fan Speed (RPM)	Air Flow (CFM)	Static Pressure (Inch-H ₂ O)	Noise (dB(A))
120x120x25	MFC0251V2	VAPO	12	100	1.2	1900	59.2	0.11	26.6

Features a 4-Pin ATX female peripheral connector and a female floppy connector for versatile connectivity
