

Low Profile Nano SIM Connector

SIM8066 Push-Push Connector

- One of the slimmest connectors in class
- Card detection switch and retention mechanism
- Perfect for super slim devices

Vital Stats

SIM Card Type	Card Eject Mechanism
Nano	Push-Push
Operating Temp.	Mating Cycles
-40 to +85°C	5,000
Card Detect Switch	Shell
Yes	Stainless Steel

- 1 Nano SIM card interface
- 2 Push-Push card mechanism
- 3 Card Detect switch
- 4 6 gold plated contacts
- 5 Dual plastic locating pegs
- 6 Profile of 1.44mm above PCB

Applications

Mobile Phones
Tracking Equipment
Cellular Dongles
Satellite Navigation
Consumer Electronics
